

Poly(ethylene glycol) diacrylate □ PEGDA

Cat. No. HPB-021

Lot. No. (See product label)

Application	3D bioprinting,tissue engineering,drug delivery,biosensors
Description	This material is polyethylene glycol diacrylate.
Application Areas	Cell culture, biological 3D printing, tissue engineering, etc.
Purity	0.99
Mw	800-1000 Da
Storage	4°C, Store away from light
Package Size	10g/vial

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
