

Selenium Enriched Yeast Extract Powder

Cat. No. NES-SY015

Lot. No. (See product label)

Product Name	Selenium Enriched Yeast Extract Powder
Common Name	Selenium Enriched Yeast Extract Powder
Synonyms	Selenium Enriched Yeast Extract Powder
Description	Selenium can prevent and inhibit tumors, has anti-aging, maintains the function of cardiovascular system, and can also prevent the occurrence of arteriosclerosis and coronary heart disease. Selenium-enriched yeast extract is natural, organic and soluble in water. The product is easy to absorb and has high bioavailability. It can be directly added to liquid or paste environment. Natural organic selenium has a higher absorption rate, is safe, non-toxic, and has no side effects.
Product overview	Selenium content $\geq 2000\text{mg/kg}$ Protein content $>40\%$
Morphology & Appearance	Light yellow to yellow-brown powder
Storage	Store at room temperature
Application	Selenium can directly act on viruses, inhibit the replication of viruses in the body, participate in cell repair, and prevent various viral diseases (such as hepatitis B, myocarditis, etc.). Selenium is also a cancer cell killer, which can reduce the side effects of radiotherapy and chemotherapy, reduce the toxicity of anticancer drugs to the kidney, bone marrow and intestines and stomach, and relieve the pain of patients. Selenium-enriched yeast extract has strong water solubility, can supplement organic selenium, neutralize and transform free radicals, and resist oxidation, thereby eliminating free radical damage to the human body and delaying aging.
