

Carboxy Methyl Cellulose, Toothpaste medicine

Cat. No. NAT-208

Lot. No. (See product label)

cat	NAT-208
Product Name	Carboxy Methyl Cellulose, Toothpaste medicine
Description	Degree of substitution (D.S):0.92-1.00 Chloride(NaCl-%): ≤3 Loss on drying(≤%):7 Salt stick ratio(%) ≤90-95 Heavy metal(%) (Pb)=0.002 Iron(%) ≤:0.02 Arsenic(%)≤:0.0005 Total number of colonies≤/g:100
Application	The fine, smooth paste, forming a good; paste, regardless of the water, not shelling, good water retention properties; salt tolerance, with better rheological properties and thixotropy.
pH	6.0-8.5
(inherent) viscosity	950-1200(2% Water solvent 25°C, mPa.s)
